

Let's leave XM alone! I listen exclusively to XM Radio. The last time I listened to my local FM band was 5/2003 when I got XM installed. I have yet to listen to the locals ever since. With that being said, we XM listeners need to have access to Weather and Traffic as well as other news.

Please reject NAB's Petition 04-160.

Let's focus our ennergies on more important issues like...

getting these gas prices under control
getting America working again
get the economy moving
get porn off the internet so my children can surf the net

I could go on but I won't.

I benefit from XM's service and it should be left alone!!
